RESPONSE TO RESTRICTION REQUIREMENT

Mail Stop Amendment
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

In response to the July 3, 2006 written restriction requirement, applicants hereby elect Group I (i.e. claims 72-90), drawn to a circuit comprising at least one circuit element wherein at least one circuit element comprises a nucleic acid template, classified in class 536, subclass 23.1 with traverse.

However, applicants submit that all groups of the invention identified in the outstanding office action are closely related and, therefore, would require common areas of search and consideration. Thus, there is no benefit in having these groups of claims examined and prosecuted in separate applications.

In view of the foregoing, applicants submit that the claims of Groups I and II should be examined on the merits at this time.

Respectfully submitted,

Date: 7/27/06
